The Mascot—Jiggs

Jiggs was born here in 1928 and has been with Mrs. Tate since he was nine months old. Through the years Jiggs has visited the hospital frequently and about four years ago took up residence with headquarters in the office. His main business seems to be greeting the visitors and his favorite sport chasing cats from the grounds and investigating all sounds and disturbances.

foreword

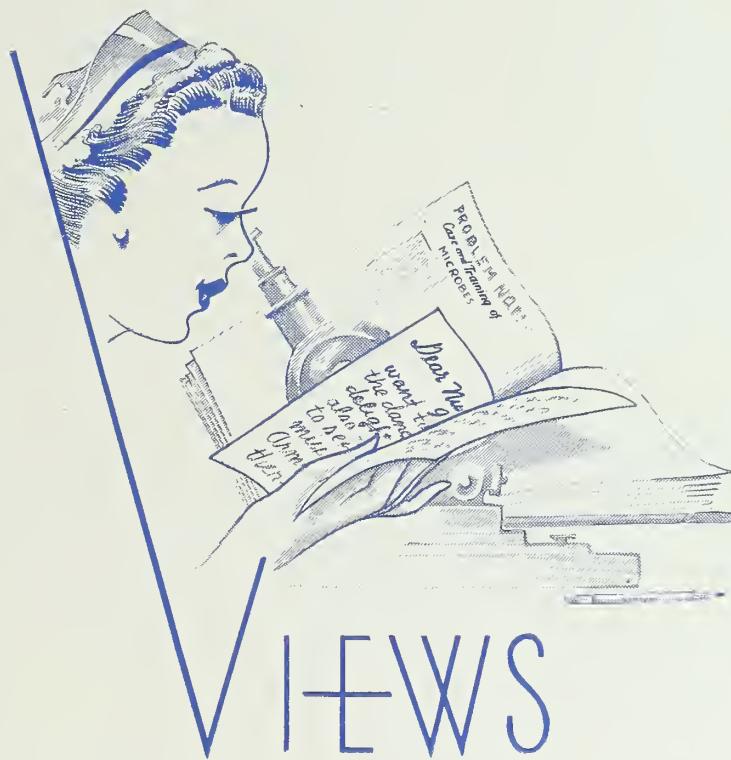

MAY the friendships that we have formed throughout these years be prolonged and our love and loyalty to the Burrus Memorial Hospital never be forgotten.

DEDICATION

DR. HARRY L. BROCKMANN

THIS book is sincerely and affectionately dedicated to one who has made an everlasting impression upon us by his kindly interest, his loving patience and his undaunted courage—The Class of 1942.

The HISTORY *of the* BURRUS MEMORIAL HOSPITAL

In 1900 High Point was a growing city with a population of about 7,000. The need of a hospital was apparent to all and the Junior Order, composed of many of the town's leading citizens, became interested and decided to buy a place and establish a hospital to serve the community.

In 1904, a frame house located where the Burrus Memorial Hospital now stands, was bought and on the 23rd day of March, 1905, The Junior Order Hospital Company was incorporated. The first superintendent was Miss Josephine Coleman. She was a graduate of St. Andrew's Home in Lynchburg, Va., and is now Mrs. R. C. Sayers, a registered nurse.

In 1911 financial conditions were such that the Junior Order decided that the best interests of the community would be served if the hospital was controlled by the doctors who used it, resulting in Dr. John T. Burrus and Dr. Guy F. Duncan taking charge.

In 1916, upon the resignation of Dr. Duncan, Dr. Burrus and Dr. H. W. McCain took over as partners, and the name was changed to the Burrus-McCain Hospital.

In 1918, Miss Gilbert Muse, now Mrs.

John McCaskill, became superintendent. Miss Muse, who had begun her connection with the hospital in 1911 as secretary to Drs. Burrus and Duncan, was graduated from the training school in 1914, and later in the same year passed the State Board examination for registered nurse. From 1911 until February, 1918, when she became superintendent, she was supervisor in the operating room.

After the death of Dr. McCain on October 3, 1922, Dr. Burrus bought his stock in the hospital and became sole owner, changing the name to the High Point Hospital.

In 1922 Dr. H. L. Brockmann came to High Point to take over some of Dr. McCain's work and to establish a laboratory in connection with the institution. Miss Lillie Pearle Wood became the first laboratory technician.

Dr. Richard Shuggardt took over the X-ray and urological work which had been done by Dr. McCain.

In 1927 new operating equipment was obtained as well as new rooms built for nursery and diet kitchen.

Miss Hazel Johnson became part-time instructor of nurses. She and the staff

doctors planned a comprehensive program for nursing education. The school has grown considerably since that time. Since 1935 Miss Johnson has been full-time instructor. The school has met all requirements of the North Carolina Standardiza-

Junior Order Hospital—1904

tion Board of Nurse's Training School and of the American Hospital Association.

The hospital personnel has grown as well as the nursing group. The equipment and buildings of the hospital have been kept up to date by repair and replacements, including an entirely new X-ray installation throughout.

In 1933 the High Point Hospital was bought by the Duke Foundation and turned over to a board of Trustees, who hold title to the property, and who were to administer it as it always had been, for the benefit of the community. At the suggestion of Dr. W. S. Rankin, of the Hospital Section of the Duke Foundation, the name was changed to and incorporated

as "The Burrus Memorial Hospital, Inc." Dr. Burrus remained as chief of staff.

The Incorporators and the first board of Trustees were as follows: Chairman, Rev. H. N. Bowne; vice chairman, Dr. O. B. Bonner; secretary-treasurer, Dr. H. L. Brockmann; Dr. John T. Burrus, Carter Dalton, E. W. Freeze, R. O. Lindsay, A. S. Parker, Fred A. Thomas and Frank Winskie.

After the death of Dr. Burrus in 1936, Dr. H. L. Brockmann was elected chief of staff.

In 1940 additional provisions for seven patients, a large modern laboratory, and two examining rooms were added. There are more extensive future developments in mind at present.

At the annual meeting of the Board of Trustees in January, 1942, Dr. Brockmann resigned as chief of staff, and Dr. E. A. Sumner, who had been associate, was elected chief of staff, and Dr. S. S. Saunders was elected associate chief of staff.

At the March meeting of the Board of Trustees, Mrs. McCaskill, who had endeared herself during nearly thirty years of faithful, efficient and consecrated service to the hospital and the community, asked for a year's leave of absence, which was granted, with regret.

Mr. J. P. Richardson, who had been field representative of the Duke Endowment, succeeded Mrs. McCaskill, and became administrator on April first, 1942, and is now in charge of the hospital's program of service.

Nurses Aid

CLASS

On March 7th, 1942, the first Nurse's Aide class was started under the direction of Mrs. T. D. Tyson, Jr., Chairman of Activities for Red Cross; Mrs. Fred J. Bartlett, Red Cross nurse, as instructor. The class was held in the class room of the Burrus Memorial Hospital with nine members in attendance. They were: Miss Betty Sechrest, Miss Mildred Marsh, Mrs. J. B. Gill, Mrs. Robert W. Walker, Mrs. C. B. Loflin, Mrs. Tom Chesborough, Mrs. Henry Bell, Mrs. William Hayes and Miss Betty Hardin. After three weeks and a half of intensive study, three weeks of general hospital practice was taken under the capable supervision of Mrs. John Ingram, floor supervisor.

Following this class another was begun with the following members: Mrs. A. R. Baxter, Mrs. C. R. Wilcox, Mrs. E. J. Klawon and Mrs. Richard Jones.

Each member of the two classes on completion of their 80 hours and successfully passing their examinations stated they were delighted with their course and were looking forward with much pleasure to the continuation of their hospital service, which will be 150 hours per year.

There are now two other classes in progress, a day class under the supervision of Mrs. J. Norman Harney and a night class of eight business girls which is now being conducted by Mrs. Fred J. Bartlett and Mrs. Evan Cecil. Both classes eagerly look forward to their class work and an opportunity to be of service to their country if they should be needed in the capacity of Nurse's Aides.

Florence Nightengale Pledge

.....

"I solemnly pledge myself before God and in the presence of this assembly to pass my life in purity and to practice my profession faithfully. I will abstain from whatsoever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to elevate the standards of my profession, and will hold in confidence all personal matters committed to my keeping, and all family affairs coming to my knowledge in the practice of my calling. With loyalty will I endeavor to aid the physician in his work and devote myself to the welfare of those committed to my care."

The Oath of Hippocrates

...©..©...

I Swear By Apollo The Physician And Aesculapius and Health and All Heal and all the Gods and Godesses that according to my ability and judgment I will keep this oath and this stipulation—to reckon Him who taught me this art equally dear to me as my parents—to share my substance with Him and relieve His necessities if required—to look upon His offspring in the same footing as my own brothers and to teach them this art—if they shall wish to learn it—without fee or stipulation—and that by precept, lecture, and every other mode of instruction. I will impart a knowledge of the art to my own sons—and those of my teachers, and to disciples bound by a stipulation and oath according to the law of medicine, but to none others. I will follow that system of regimen which, according to my ability and judgment, I consider for the benefit of my patients, and abstain from whatever is deleterious and mischievous. I will give no deadly medicine to anyone if asked, nor suggest any such counsel, and in like manner I will not give to a woman a pessary to produce abortion. With purity and with holiness I will pass my life and practice my art. I will not cut persons laboring under the stone, but will leave this to be done by men who are practitioners of this work—into whatever houses I enter, I will go into them for the benefit of the sick, and will abstain from every voluntary act of mischief and corruption, and further, from the seduction of females or males, of freemen and slaves—whatever, in connection with my professional practice, or not in connection with it, I see or hear, in the life of men, which ought not to be spoken of abroad. I will not divulge as reckoning that all such should be kept secret. While I continue to keep this oath unviolated, may it be granted to me to enjoy life and the practice of the art, respected by all men, in all times. But should I trespass and violate this oath—may the reverse be my lot.

The Junior Alumni Club was organized in 1938 by the student nurses with the help of Mrs. W. Ken Whitesell, who was the first advisor of this organization. The purpose of this Club was for social meetings as well as business. In 1939 Mrs. Jesse Washburn became advisor. She was advisor during the years 1939 and 1940. During her first year as advisor, she did much to help the Student Nurses to organize and publish the *Burrusonian*, for which we were very grateful to her.

In 1941 Miss Stallings became advisor, and is at the present time. Under Miss Stallings's instruction and leadership, we have added many enjoyable activities. They are dancing, basketball, bowling, tennis, and bicycling.

If you can see your day off so neatly planned
Turned free-for-all, no matter what you do;

Class

H I S T O R Y

On August 31, 1939, nine girls arrived on the campus of the Burrus Memorial Hospital. Friendships budded and classes started the following day. How our eyes bulged when the do's and don't's were instructed to us. Two days later one of the girls decided matrimony was her calling. Three months later another girl decided college was her greatest desire. After Thanksgiving things went smoothly but slowly along with a grand finale at Christmas when we were granted a two weeks' vacation.

Christmas holidays were over, and we were introduced to the halls. My, how we ah'd and oh'd at the implements that we were told to become familiar with. How we would have made the grade, I do not know, had it not been for the caps and bibs we added to our uniforms at this time.

Winter passed. Spring began, soon classes were over and a reception was given in honor of the Seniors. Summer vacations began and ended, then a new class was added, which made us no longer first, but second year students.

Classes began again and who were to teach us but the Doctors whom thus far we had evaded as much as possible. Never before had we appreciated Miss Johnson as now. At this time a student from the Guilford General Hospital of High Point was admitted to our class. Onward now with eight of us again.

Winter passed; summer came with nothing unusual happening. Then summer vacation again.

Back to school and we are Seniors. How we loved the black bands that were then awarded us. Also another new class was welcomed to our household.

Now we confront graduation with an entirely different feeling from that of previous years for just think, we are to soon discard our dear old blue and white uniforms, to replace them with white uniforms, which we for three years have looked forward to wearing.

Despite the hardships we have had, we look back upon them with fond memories. Also we deeply appreciate the interest and teaching during our training.

In behalf of the students following us, may they find the joy and happiness we have had during the past three years.

Attention, First Aiders

By Amy Grief

Lady, if you see me lying
On the ground and (maybe) dying,
Let my gore run, bright and free;
Don't attempt to bandage me,
While there's life there's hope, so, pet,
Don't apply a tourniquet;
Do not give, for my salvation,
"Artificial respiration!"
Do not stretch my bones or joints,
Do not press my "pressure points!"
If "queer symptoms" you should see
Don't experiment on me!
If I'm suffering from "shock"
Take a walk around the block!
If you must be busy, pray
Help to "keep the crowds away!"
So, whatever my condition,
Phone at once for a physician!
Let me lie; I'll take a chance
Waiting for the ambulance!
From "First Aid" I beg release—
Lady, let me die in peace!

Funnybones

Newlywed: There's something wrong with this steak. It tastes queer.

Wifey: I can't understand it, dear, I did burn it a little, but I rubbed unguentine on it right away.

"Is Dr. Tice in?"

"No, sir, and I don't know how long it will be; he's been called on an eternity case."

There are those that say that smiling is a lost art these days. Not so; have you heard about the girl being hurt in an explosion last night? A smile lit up her face, and the powder went off.

The admission of a patient to a semi-private room was written on a prescription blank. After the patient was admitted, Miss Clinard gave the prescription to the patient's husband and ask him to take it to the drug store and have it filled. The patient's husband handed it to the druggist and asked him to fill it.

The druggist said "I'm sorry, I can't fill this," and handed it back laughing.

Patient: Miss Bullard, go in the bath room and look for my ring. I've lost it.

Miss Bullard (after looking for the ring, came back, saying): "I'm sorry, I can't find it."

Patient (showing her his ring) laughed and said, "I have this one, I meant the ring around the bath tub."

Dr. Flagge: Miss Bradley, did you hear about that couple going to see the Lost Colony and getting lost.

Miss Bradley: No, but I heard about the couple going out to the battleground to fight.

Dr. Wood: Miss Crouse, bring that stool over here.

Miss Crouse: What do you want me to do? I can't sit here and reach the table.

Dr. Wood: I didn't mean for you to sit on it, I wanted you to stand on it so that you could reach the instrument table.

Miss Carter: Miss Bailey, after anatomy exam, where did you put the organ of corti?

Miss Bailey: I didn't put it anywhere. I left it on the board.

Miss Craig: Miss Crouse, come in the operating room quick. We're out of ether.

Miss Crouse: What do you want me to do?

Miss Craig: Dr. Brockmann wants you to kiss the patient on the operating table.
